RE: US Intelligence Support to Israel Budget 1990-2015

Dear Delores M. Nelson,

This is a request under the Freedom of Information Act. I request a copy of the intelligence budget that pertains to line items supporting Israel. In 1996 Congressional testimony by then-Director of Central Intelligence John Deutch that "the President is persuaded that disclosure of the annual amount appropriated for intelligence purposes will inform the public and not, in itself, harm intelligence activities." U.S. provides more foreign assistance to Israel than any other country, and this assistance is publicly disclosed in reports to Congress and U.S. taxpayers.¹ Elected officials claims the amount of aid the U.S. provides Israel in terms of intelligence services is enormous, however taxpayers have never seen the dollar amounts over time. Taxpayers also cannot assess if such assistance is affected by Israel's active ongoing penetration of the United States for defense, economic, diplomatic and political intelligence.

In order to help to determine my status as a requester please understand that I am affiliated with an educational, noncommercial research institution, and this request is made for a scholarly and news reporting purpose.

We do not, however, request waiver of duplication fees for this request even though disclosure of the requested information to IRmep is in the public interest and it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. We will pay up to \$50 for any duplication fees involved in the processing of this request.

Thank you for your consideration of this request.

Sincerely,

Grant F. Smith
Director of Research

RE: Appeal F-2015-01330 Intelligence support for Israel 1990-2015

Dear Michael Lavergne,

This is an appeal of CIA's denial of our public-interest FOIA request for the above-referenced data.

Director of Central Intelligence John Deutch in 1996 gave Congressional testimony stating that "the President is persuaded that disclosure of the annual amount appropriated for intelligence purposes will inform the public and not, in itself, harm intelligence activities." CIA, under this principle, has been compelled in federal court to release the types of records we seek.

Israel is the largest recipient of U.S. foreign aid, but the intelligence component is hidden from public view. Therefore, Americans, who in polls oppose U.S. aid to Israel¹, have no idea how much it actually is.

The CIA is no longer allowed to hide its budget within the Department of Defense budget. This has improved public visibility into how much value the agency provides for the billions of dollars allocated each year. The answer is usually "not much" as anyone familiar with the agency's record on covert action in Indonesia, the Bay of Pigs, non-prediction of the collapse of the Soviet Union, failure to prevent 9/11 and Iraq "slam dunk" weapons of mass destruction NIE can attest.

Americans have an equal right to measure how little intelligence aid sent to Israel provides in terms of U.S. national security and insight. As a nuclear weapons state, under the Symington and Glenn Amendments to the Foreign Aid Act of 1961, Israel is not even entitled to receive U.S. aid. Keeping the budget secret adds insult to their injury.

I therefore demand that you release this data under FOIA as required by law.

Sincerely,

Grant F. Smith, Director of Research

Dear Mr. Smith:

On 12 May 2015, the office of the Information and Privacy Coordinator received your 5 May 2015 administrative appeal under the Freedom of Information Act (FOIA) for *a copy of the intelligence budget that pertains to line items supporting Israel for the years 1990-2015*. Please continue to use this case reference number so that we can more easily identify your FOIA administrative appeal.

You are appealing our initial-level determination to neither confirm nor deny you material responsive to your request. ***Your appeal has been accepted and arrangements are being made for its consideration by the Agency Release Panel.***

You will be advised of the panel's determination. In order to afford requesters the most equitable treatment possible, we have adopted the policy of handling appeals on a first-received, first-out basis. Despite our best efforts, however, the large number of public access requests CIA receives creates processing delays making it unlikely that we can respond to you within 20 working days. In view of this, some delay in our reply must be expected, but every reasonable effort will be made to respond as soon as possible.

Sincerely,

RE: US Intelligence Support to Israel Budget 1990-2015

Dear FOIA Officer, FOIA Officer,

This is a request under the Freedom of Information Act.

This is a request under the Freedom of Information Act. I request a copy of the intelligence budget that pertains to line items supporting Israel. In 1996 Congressional testimony by then-Director of Central Intelligence John Deutch that "the President is persuaded that disclosure of the annual amount appropriated for intelligence purposes will inform the public and not, in itself, harm intelligence activities."¹⁹ U.S. provides more foreign assistance to Israel than any other country, and this assistance is publicly disclosed in reports to Congress and U.S. taxpayers.¹ Elected officials claims the amount of aid the U.S. provides Israel in terms of intelligence services is enormous, however taxpayers have never seen the dollar amounts over time. Taxpayers also cannot assess if such assistance is affected by Israel's active ongoing penetration of the United States for defense, economic, diplomatic and political intelligence.

In order to help to determine my status as a requester please understand that I am affiliated with an educational, noncommercial research institution, and this request is made for a scholarly and news reporting purpose.²⁰ We do not, however, request waiver of duplication fees for this request even though disclosure of the requested information to IRmep is in the public interest and it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. We will pay up to \$50 for any duplication fees involved in the processing of this request. Thank you for your consideration of this request.

Sincerely,

RE: 101759

Dear FOIA Official

This is an appeal of the above-referenced FOIA denial. (attached) We believe denial of a proper administrative search, review and release is unwarranted because:

1. The President of the United States has already publicly released the parameters of US intelligence support for Israel. <https://obamawhitehouse.archives.gov/the-press-office/2015/08/05/remarks-president-iran-nuclear-deal>
2. Topline intelligence line item numbers are routinely released, and do not present any risk to US national security.
3. To the extent that the US does provide intelligence aid to Israel, having never issued required waivers under the Arms Export Control Act required for aid to non-NnPT signatories with nuclear weapons programs, the aid is unlawful. Under EO 13526, information may not be classified as secret to, "...conceal violations of law, inefficiency, or administrative error;"

Please acknowledge this appeal.

Thank you.

Sincerely,

Mr. Grant F. Smith

P.O. Box 32041
Washington, DC 20007

Thank you for your 12 June 2017 letter appealing the response from the National Security Agency (NSA or Agency) to your request under the Freedom of Information Act (FOIA). You had requested "a copy of the intelligence budget that pertains to line items supporting Israel."

I have reviewed your initial request, the Agency's 5 June 2017 response to you, and your letter of appeal. I have determined the Agency's response was correct. Therefore, I am denying your appeal for the reasons explained below.

The appropriate response in this case is to neither confirm, nor deny, the existence or nonexistence of any material pertaining to any NSA intelligence programs or activities. To do otherwise would result in the exposure of intelligence information, sources, methods or activities which could harm our national security and severely undermine the NSA mission. For example, if NSA denied having information in cases where none exists, but remained silent in cases where information did exist, it would identify activities in which NSA was or was not engaged. Moreover, whether or not a particular activity or program exists, as well as any Agency involvement, may be classified or protected information and must remain so. Any acknowledgement may be deemed to be an improper disclosure of information. Your appeal is therefore denied because the FOIA exempts the release of classified¹ and/or protected² information.

¹ The first exemption under the FOIA indicates that the FOIA does not apply to matters that are authorized by Executive Order to be kept secret and are properly classified in the interest of national defense or foreign relations. The fact of the existence or non-existence of any records responsive to your request is an appropriately classified matter. Paragraph 3.6(a) of Executive Order 13526 ("Classified National Security Information") specifically authorizes this type of response, also known as a Glomar response, to such requests made under the FOIA.

² The third exemption under the FOIA authorizes the withholding of information specifically protected from disclosure by statute. The fact of the existence or non-existence of any records responsive to your request is currently exempted from disclosure by the following statutes: Title 18 U.S. Code 798; Title 50 U.S. Code 3024(i); and Section 6, Public Law 86-36 (50 U.S. Code 3605).

Case: 101759/Appeal: 5106

You are hereby advised of your right pursuant to 5 U.S.C. § 552(a)(4)(B) to seek judicial review of my decision in the United States District Court in the district in which you reside, in which you have your principal place of business, in which the Agency records are situated (U.S. District Court of Maryland), or in the District of Columbia.

Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows:

Dear Mr. Smith:

This is a status update on your Freedom of Information Act (FOIA) requests (enclosure) received by this office. Your requests were determined to fall within our Complex Track for FOIA processing. This simply means that your requests involved a large amount of records, or that the records requested require significant review within this agency or consultations with other government agencies. Please be assured that our office is committed to processing your requests as soon as possible as DIA continues its efforts to eliminate the large backlog of pending FOIA requests.

Because your requests falls within the Complex Track and has been pending for a period of time greater than the statutory allowance, this office has determined that it may be helpful for us to provide greater explanation concerning the status of your requests. This office sorts backlogged requests into three functional queues for management purposes. These three queues are explained further below:

Awaiting Tasking Queue: includes requests that must be tasked within the agency for subject matter experts (SME) search and/or review of the responsive records.

Awaiting Response Queue: includes requests that have been tasked and are awaiting response or requests which have been referred to other government agencies for review of their equities.

Ready for Work Queue: includes requests, which all responses have been received and awaiting processing of final response to the requester.

We solicit your patience and understanding and assure you, we will process your requests as soon as possible. If you have any questions, please contact the FOIA Requester Service Center, at (301) 394-5587 and reference your case number.

RE: US Intelligence Support to Israel Budget 1990-2015

Dear FOIA Officer, Sally A. Nicholson,

This is a request under the Freedom of Information Act.

This is a request under the Freedom of Information Act. I request a copy of the intelligence budget that pertains to line items supporting Israel. In 1996 Congressional testimony by then-Director of Central Intelligence John Deutch that "the President is persuaded that disclosure of the annual amount appropriated for intelligence purposes will inform the public and not, in itself, harm intelligence activities."²⁵ U.S. provides more foreign assistance to Israel than any other country, and this assistance is publicly disclosed in reports to Congress and U.S. taxpayers.¹ Elected officials claims the amount of aid the U.S. provides Israel in terms of intelligence services is enormous, however taxpayers have never seen the dollar amounts over time. Taxpayers also cannot assess if such assistance is affected by Israel's active ongoing penetration of the United States for defense, economic, diplomatic and political intelligence.

In order to help to determine my status as a requester please understand that I am affiliated with an educational, noncommercial research institution, and this request is made for a scholarly and news reporting purpose.²⁶ We do not, however, request waiver of duplication fees for this request even though disclosure of the requested information to IRmep is in the public interest and it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. We will pay up to \$50 for any duplication fees involved in the processing of this request. Thank you for your consideration of this request.

Sincerely,

Grant F. Smith, Director of Research

RE: FOIA Appeal ODNI Case DF-2017-00287

Dear FOIA Officer,

This is an appeal of the above referenced FOIA denial.

1. ODNI's reference to Section 3.6(a) of Executive Order 13526 is superseded by President Obama's confirmation that such an intelligence budget exists, and provision of enough data to roughly estimate it's size in terms of US dollars.
2. Furthermore, ODNI cannot deny under Section 3.6(a) of Executive Order 13526. The EO specifically exempts information classified to "conceal violations of the law..." US aid to Israel is illegal under the Symington & Glenn Amendments to the Arms Export Control Act.

Thank you for your consideration of this appeal.

Sincerely,
